

5 February 1976

Dear Blackie:

Many thanks for your note and the notes of   
I am reluctant to have them further publicly distributed,  
not because of their content but simply because the mere  
fact of my occupying the job I do titillates the kooks. I  
would not want to cause the Agency more troubles than it  
already has, especially in Europe.

May I ask you a favor. I would like to order from  
the PX in the Far East two ginger jar lamps. Could I have  
them mailed to you? If so, I would be very grateful.

Hope to see you in March. Best to all there.

As ever,
